

TITLE

Pricing on Sabre GDS (Professional Level) Focus on Airline Pricing Functionality with online Labs

COURSE OVERVIEW

With many travel companies requiring a comprehensive knowledge of online booking systems, it is essential to be a competent user of Sabre. This course will train you to understand and use the Sabre Reservations System, one of the top industry-standard booking systems.

Sabre was developed by American Airlines in the 1960s and has approximately 30% of the global market. It is used worldwide, especially in the USA. Airlines using this system currently include American Airlines, Cathay Pacific, China Airlines, Singapore Airlines and All Nippon.

This Sabre course is recognized all over the world and is fully compliant with IATA's GDS (International Air Transport Association's Global Distribution Systems) requirements.

The attendant must have successfully completed the **Flight Reservations on Sabre GDS (Core level)**
